## 2013 Survey Results Show FFG is as Popular as Ever

The entrants from our three 2013 tournament locations (Reno, Toledo, and Reno) continue to respond very positively in our annual survey. **When asked if they would be interested in bowling in a FFG league, tournament, or sweeper if offered in their hometown area, more than 89% said they would!** Strong bowler satisfaction like this has been expressed every year since 1989, a real tribute to the strength and appeal of the FFG. We thank you again for your business and your loyalty. **As mentioned elsewhere in this newsletter, the FFG is now available for your hometown bowling center!**

## FFG Software Can Operate in any Center

Little Lucas, the moniker we gave our new software, is available for purchase. This is a semi-automatic system, which does require a scorekeeper who inputs the pin count into the laptop computer. From that point forward, the 40 frames are automatically scored. One system will service four lanes for approximately \$1000.

Distribution of Little Lucas is being handled by **New Center Consulting, Inc. of Rochester Hills, Michigan.** Visit them at Bowl Expo booth 163.
